Conferlink
Event Portal

Manage Events with Conferlink Event Portal

Help make your Operator Hosted meetings and events more professional. With Conferlink Event Portal you can manage your conference along with our Operators to help take the stress out of large-scale conferences.

See who is joining your call and your question queue in real-time. The Conferlink Event Portal provides you with important information as it is unfolding to help you manage your call and Q&A session effectively.

Conference Chat
Enables you to communicate directly with your lead operator and members of your team during the conference.

Question Queue
View, rearrange and remove questioners in the Q&A session.

Participant Details
View how many guests are on the call and their details in real time.

Optimised for your Device
Compatible with Windows desktops and tablets, and iOS for your iPad.

Conferlink Event Portal is available as part of Telstra Conferlink Operator Hosted bookings.
